Profile

I am a devoted person looking for a job as software developer. Inventive and team-focused, I am ready to use my skills and improve my knowledge gathered in the past year while studying and practicing JavaScript, CSS and HTML. At the moment I am learning TypeScript and Angular as I can reach my goal to build innovative and efficient applications, but also to develop new features on the existing ones.

Employment History

Career break, Cluj-Napoca
AUGUST 2021 − PRESENT

- I dedicated the last year to my studies of programming languages and enrolled in courses of HTML, CSS and JavaScript, currently I am learning TypeScript and Angular.
- I created few personal web pages that can be checked here.
- Now I am eager to start a new job as front-end developer, to be part of a team where I can be useful and lead further the objective of the company.

Project Documentation Controller, Emerson, Cluj-Napoca
NOVEMBER 2018 − AUGUST 2021

- I administrated the documentation part for the projects assigned, by implementing the comments, recording and re-submitting them on time.
- I enhanced the training procedures for the new members and I shortened the process of introducing the newly hired members into the team, while continue working on my projects.
- I participated in the kickoff meetings at customers' site and set up the future steps for a good running of documentation.

Documentation Controller, Emerson, Cluj-Napoca
JANUARY 2015 − NOVEMBER 2016

- I had the responsibility to record, check and track all the incoming and outgoing documents.
- I reviewed and updated the technical documents, I submitted them on time for approval, all in a good collaboration with our customers.

Shop Assistant, Island Sun Trading USA, New Jersey, USA
